VARIETIES

Almost all of the NETA products come in any of the following cannabis varieties, to best accommodate a broad range of patient conditions/symptoms.

SATIVA

Patients report that sativa based edibles offer an uplifting effect, help to improve focus, and give a boost to mental acuity while providing the symptom relief they need.

INDICA

Patients report that indica based edibles work best when rest and relaxation are on the menu. When you just need to unwind while managing your symptoms, consider using one of these products.

HYBRID

Patients report that hybrid based edibles are all about equilibrium. Not too busy and not too calming, these products may be best utilized for symptom management when the outlook calls for a "standard issue day," even-steven all the way.

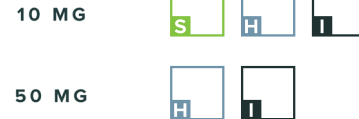

CBD

CBD is a non-psychoactive compound found in cannabis. Products produced with high levels of CBD and low levels of THC provide many of the symptom management benefits of your typical products. They don't produce the high that's found in THC products. If a clear mind is needed, these may be a good option.

EDIBLES

2/18/16

PRE ROLLED JOINTS

Moonshine Haze

TAC: 19.7%, THC: 18.9%, CBD: 0.3%,
CBG: 0.4%, CBC: 0.1%, CBN: 0%, THC-V: 0%

Goo

TAC: 20.82%, THC: 20.02%, CBD: 0.03%,
CBG: 0.77%, CBC: 0%, CBN: 0%, THC-V: 0%

Dela Haze

TAC: 24.33%, THC: 18.08%, CBD: 5.43%,
CBG: 0.77%, CBC: 0%, CBN: 0%, THC-V: 0.05%

Tangerine Haze

TAC: 20.82%, THC: 20.02%, CBD: 0.03%,
CBG: 0.77%, CBC: 0%, CBN: 0%, THC-V: 0%

Walker Kush

INDICA

TAC: 14.76%, THC: 14.34%, CBD: 0.04%, CBG: 0.38%, CBC: 0%, CBN: 0%, THC-V: 0%

This strain will start you off on a happy path to relaxation. With an all around good mood effect, this can make a great day option. Some patients report that it helps with ADD, depression, migraines and PTSD.

Facewreck

SATIVA

TAC: 26.72%, THC: 25.09%, CBD: 0%, CBG: 1.63%, CBC: 0%, CBN: 0%, THC-V: 0%

A favorite haze based strain that leans heavily towards an indica medicating effect making for an interesting balance of medical aspects not found in other related strains. A truly energetic and racy strain. This strain may be ideal for pain issues, energy and mood elevation.

White Berry

INDICA

TAC: 12.76%, THC: 12.1%, CBD: 0.03%, CBG: 0.63%, CBC: 0%, CBN: 0%, THC-V: 0%

This strain combines a strong body high with uplifting mood. This strain is reported to help with muscle spasms and ticks, though it is more commonly used for anxiety and depression. Patients claim to get relief from insomnia and minor pains.

Amnesia Haze

SATIVA

TAC: 17.66%, THC: 17.25%, CBD: 0.05%, CBG: 0.36%, CBC: 0%, CBN: 0%, THC-V: 0%

This is an uplifting strain that may be great for mornings, starting your day with a boost of energy. Patients report this strain will help with stress, depression, and pain.

Grape Ape

INDICA

TAC: 18.48%, THC: 18.17%, CBD: 0.04%, CBG: 0.27%, CBC: 0%, CBN: 0%, THC-V: 0%

This strain may be best for night or before bed. Though there is a clear minded high the heavy sedative effects may make it difficult to get out of your seat. Grape Ape may be great for those with insomnia or anxiety. Often this is used against pain and stress, also helping with sleep.

Tangerine Haze

SATIVA

TAC: 20.82%, THC: 20.02%, CBD: 0.03%, CBG: 0.77%, CBC: 0%, CBN: 0%, THC-V: 0%

Great day time option with stress relieving euphoric effects, usually causing munchies. May be ideal for eating disorders and high stress lifestyles. This may treat depression and stress, while providing mood elevation.

Flo OG

HYBRID

TAC: 16.86%, THC: 16.1%, CBD: 0.29%, CBG: 0.46%, CBC: 0%, CBN: 0%, THC-V: 0.01%

This strain brings the scent and taste of hash into a beautiful flower form. The Flo OG is an ideal day-time strain with a quick and strong mental response. Patients have reported relief from muscle pain, help with sleep, and mood elevation.

Sour Tsunami x Cataract Kush

HYBRID / CBD

TAC: 19.61%, THC: 8.5%, CBD: 10.56%, CBG: 0.54%, CBC: 0.01%, CBN: 0%, THC-V: 0%

This strain may be uplifting, relieving pain, stress, and inflammation. We are looking forward to getting more feedback about this strain, please let us know about your experience so we can update this description.

Gran Flora

HYBRID

TAC: 19.06%, THC: 18.65%, CBD: 0.02%, CBG: 0.39%, CBC: 0%, CBN: 0%, THC-V: 0%

Gran Flora has a slow onset with a clear headed, creative and uplifting sensation. This energetic strain may be helpful with your appetite stimulation and pain control.

Chem Dawg

HYBRID

TAC: 13%, THC: 12.53%, CBD: 0.02%, CBG: 0.45%, CBC: 0%, CBN: 0%, THC-V: 0%

Has a very strong mental effect that is long lasting with heavy body sensation. It may help with stress, muscle and joint pain, as well as movement disorders and depression.
