## INDEPENDENT TURNOUT SCENARIOS

All independents were asked both the Democratic and Republican ballot questions. Those who said they were voting in the Democratic primary got the Democrat questions first, and vice versa. Tables show the horserace with registered partisans, plus independents who said they are definitely voting in one primary, might change their mind, are leaning toward one primary, or are truly undecided.

Let's say for a moment you decided to vote in the Democratic primary. If the candidates in the Democratic primary were **READ AND ROTATE ORDER**, for whom would you vote? *If undecided, ask...Even though you say you are undecided -- which way are you leaning as of today? List not read again unless requested by respondent. Order rotated, if read.*

### About the Poll

These results are based on a survey of 803 registered voters likely to vote in the 2016 New Hampshire presidential primaries. Live telephone interviews were conducted February 2-4, 2016 via both landline and cell phone using conventional registration based sampling procedures. Approximately 9 in 10 respondents are previous primary voters. The margin of sampling error for either primary is +/- 4.9 percentage points with a 95 percent level of confidence. The poll was sponsored by WBUR, a National Public Radio station in the Boston area.
