Hello Charlie

Saying my Best Charlie - just your writing - you - takes phone call to the Post.

Account - Confusing! Made App to plan utility to get income - previous deal now - I'm done multiple hire was chief suspect but the winter off do for back for Catherine But No Deal though they would want to check the books on it. But no deal for Catherine - she has too much time!

11 years 20 months - all the 7 killers of our 50 people have been found for 15 years or so - Confession only me found + will do more tapes than the 7 Killers - all have kept records - my - took every thing!

I'm up putting together a photo album of AZ for my family. It will be getting more little warning that time to write such now while there I'm + I'm able.

I dread going back into the hospital again - in town and naturally lots of security. I shackle and chains through them and into ^{END} of the bed and left hand with cursed black box invented by some "Inmate" with heavy padlock - I've been on that situation 3 times - had a block - have had 4 - running out of my 9 liver.

Chained and cuffed for day & nights with guards in room - they are pretty pleasant - but the black box is heavy and after awhile my left shoulder is hurting and takes weeks to get over. Would like to get one of those easy chairs - go in your sleep - no black box and hospital would be an ordeal.

Discussed possibility of having access to oxygen - but can understand why it can't be done here. When I feel heart problem - I take nitro and another in 10 minutes - they work but not all the time.

Thanks to Plymouth County Jail - Special Treatment have heard damage - heart murmur and valve problem + AFIB! When in and out of some monitoring - My time now is again writing family and packed pictures

Page 5

books and letters + send them home - In "prison" now there low
 life junkie would steal any thing they could - Prison has changed
 complete Reversal - Once you had a few low type - weird or mad
 are hiring whistle blowers - Now - they are the majority and
 have one thing in common - drugs - the minority are non users
 and Do their Own Time -

I spend most of the time in my cell - some day a too
 hot on the yard - have learnt that is dangerous - no shade
 and I've been stuck out there unable to breathe - Once taken
 to hospital here in med area to see nurse - the Med. personell
 are good but over worked by the "New Inmate" they seem to
 live on the sick line - Sick Call - and many wait operation
 before they are fixed! "I've appeared on Street" - "What
 new eye glasses - X Rays - any thing they can get - I try
 never to go and have to be in small area with there -!

Charlie I wish the Rock was open and I could do there
 sentence there - I honestly believe had I ever been in a place
 like this or Prison populated by - the howls of the low
 screaming - laughing at 74 - stomping down in or down at
 day on table - and loud speakers telling some body in Spanish
 that male + female personell work here - many times a day
 must be morose to have to be told this all day!

I'm convinced these places are more like mental institutions
 had I come here years ago I'd have got a lunch pad and a
 job - would have made me get a job!

I seem like majority of white are addicts - non
 addicts rare - and by degree learn to avoid them and
 the noise level is high -

Mass hall - Made to go there - once today - 2 times at
 the most - Chaos - walk from table to table - holler across

Charlie - send me a picture with AZ no for my photo album - I suggest some pictures I know
 will have to go my nice to send me pic of Charlie's Cell - my brother ill and her wife
 mine parents so when being taken care of there - one sister in 9
 the down 9 are 74 for spine damage! ?

④ I want! They must go out of her thinking! I do not like a prison and I think that every time I write out Penitentiary in envelope. I had I'm not young and have to be locked up for decade - I'm glad prison was what I was those years - and had the friendship of humans.

⑤ The go night up in a money racket
 any some believe - cleaner work - Spring
 name plus etc note that he died in prison. I saw who was - Charlie - I saw Devery & my son to -
 Walter Abbott who died - fugitive - Jimmie O'Brien who's captured - King died - TWIMBLE GOODWIN
 FOREST TUCKER SHOT-CAPTURE FLA.

I want! They must go out of her thinking! I do not like a prison and I think that every time I write out Penitentiary in envelope. I had I'm not young and have to be locked up for decade - I'm glad prison was what I was those years - and had the friendship of humans.

After prison - was friends with Charlie Catalano - Louie Orquette - Tom Devery - (Cameaux, Cajun) and few others in place - I don't mention a couple because I could hear them up if still alive -

I'm glad you made it out there and passed this in the mess hall I eat say no to talk - have to tell you I can talk over the way to eat and "Get Out"! I'm sure have taken over the Place Deume - Punker me - "check in" once isolation was now a now - broke - I'm in your air and I made a day brought to you more food than served in mess hall - they won't transfer - check in say I'm afraid! Lower than and women they write home begging for \$ - On the next news did anything for any body.

There were always a few of these low types around. Read another AZ book - some one send me both and like I said never tell who read them - have to wait until some one writes & tells me - and they must think - "He never thanked me"!

The Book Adventure # 1259 - William G Baker - you would like these books - the old stories.

Before I forget - could you please make me a couple of copies of the picture of Joe Carners with Indian head & arrow feather in side view? I don't have copy - also I'll send you picture once in awhile and would like to have you send back a few copies - would that be possible? Don't copy the pic. enclosed. Any news of who is still alive? Feel bad for Spring dying.

I'm sure you will be on

Sunday June 11 2017

Hello Charlie

Ran out of space on letter to you written
on copy of Letter Dear John.

All your friend Don I received book
"Pathful Steps" and wanted to read it - No for
29 pages it got my attention - well written and being
a dog person I really am going to enjoy the rest of the
book.

I just read book about "Merrill Marauders" military
history China Burma India theater send to me via post
an author who had uncle in that outfit 2nd book on
the action. The outfit took the japa man to man in
the jungle where japa were considered superior - tougher stronger
and could live on handful of rice etc.

I have many books to read just down excellent book
Churchill Ministry of Unpleasantly War by Aileen Math.

Lately get chest pain when I wake up from bad
night's sleep - pop nitro patch and do breathing exercises
so far so good but feel any thing can happen - I've
been in hospital 3 times - heart attack each time! So
I went to writing letter to Catharina and family
and want to keep them in good spirits.

Also try to write Catharina every day to help her do
her sentence 11 years and 2 months! war 8 and that was
second sentence in all America for her crime - now 11 years 2
months punishment! Ran out to really hurt her and he speak

Strange World Boston - A lone Cart in King
and Chalmers is for Kops and Kicks.

(2)

the killers of 50 people for their testimony about me + granting
J.C. for 40 year sentence. Hard for me to believe that could be
done in America.

Want to point about John Morris and how a my trial and
why the jury was checked by him - these examples

In Boston a guy named Eddie Miami is
targeted by John Morris. They want to make him talk in the
Kafkas. They question him but can't move this little guy can't
budge him - John Morris plays another card, he makes some device
that when Eddie driver shot it in explosion - ~~no~~ damage but nearly
neph ^{HE} ^{HE} wife and children under frame of her car. The wife
is driving with her children in the car - police stop
her car in the highway - strange witness are waiting behind
and they call the Bomb Squad - wife and children off to the
side. Bomb squad goes under the car get package and
them put in in huge container on Bomb Squad truck -
They tell every body danger is over and woman has
relatives come to drive her and children home and also
drive her car when too narrow to drive.

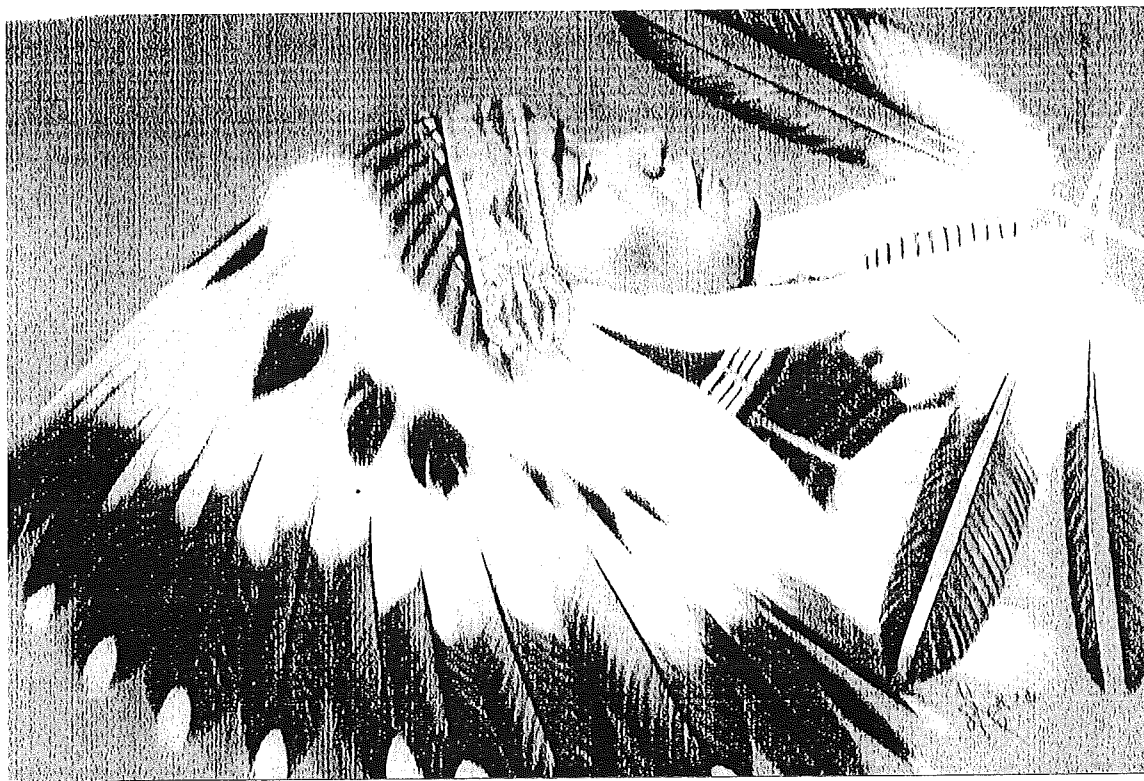

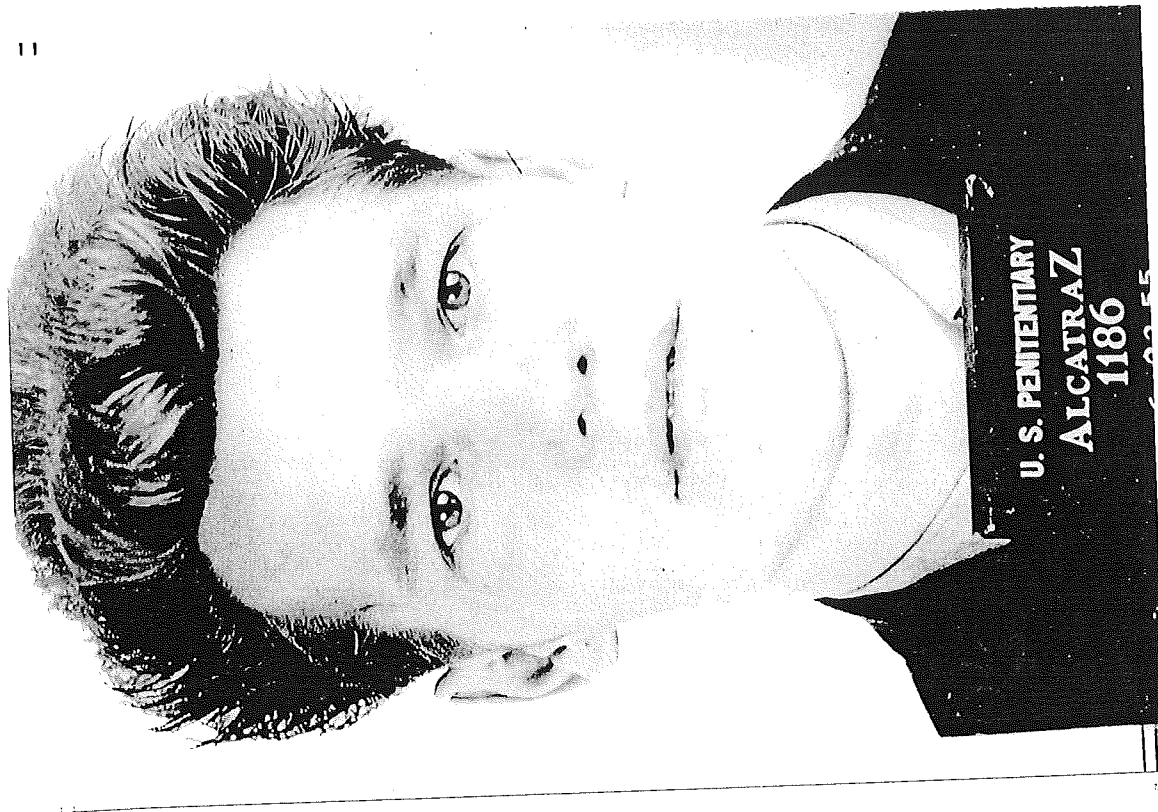

the front of jury my atty has John Morris F + FBI
now relied on the stand give it down that Morris put
bomb device under frame of Eddie Miami's car. Brightness
wife + children - none want to go on case - wife + children
brightened - Eddie will not do anything for FBI at that
point. My lawyer asks ^{MORRIS} ^{FBI} did you know wife and children don't
want to go in any car? No - You never told them I was a
trick on your part to make them Reply "No" Lawyer
"Why?" "Morris nasty" "Because I didn't have to!"

I hate J.M. who lead his best friends into 40 years of prison
tried to get me killed with his "explosive" caliber to cover my refusal to kill his way

Will Be Has More Standby.
But your friend Jim Sulger 1968

This is Joe Carnes the choctow indian whitey had an artist
do this from his mugshot i made copies & sent him back one

11

To my Good Friend and Fellow
Alumani Charlie Hopkins

I thank you for all the great letters and pictures -
has helped to make my Florida Vacation a
memorable one.

I be my sincere wish that Charlie H.
will be the "Last Man Standing" Last of the
Graduates of American Finest Crime Schools.

Sincerely James Whitey Bulger 1428 AZ
