**AARP Report: Generics 18 Times Cheaper Than Brand-Name Drugs**

"The magnitude of the difference between the average retail prices for brand-name drugs and the average retail prices for generic drugs is growing and it is substantial," says Leigh Purvis, AARP's director of health services research.

**STOP   
GREED  
CUT DRUG PRICES NOW**

*It's unfair that Americans pay the highest prescription drug prices in the world. We must crack down on price gouging and the greedy practices that keep prices artificially high. It's time our leaders stick up for people 50+ and their families.*

WELLESLEY COLLEGE CLASS OF 2022

The melting pot has long since boiled over, an overflow of bitterness;  
They lack *aji*, they lack color and themes;  
They fear what was once the land of dreams and prosperity;  
The West is not the gold mine—the Western World is broken.  
My rice and beans are tasteless and I have been stripped of identification at the borders;  
My only coronas left are the ones in Spain's collection as a prize for their *conquistas*;  
My cumín is my cumín because it is colored too.

Tell me why I should remain calm  
Because all I see is unseasoned logic.

Following

No President should fear  
public scrutiny of his program.  
For from that scrutiny comes  
understanding; and from that  
understanding comes support  
or opposition. And both are  
necessary.

## It is Written

by Renuka Raghavan

Speech delivered to the United Nations

When we realize the importance of light when we see darkness.  
We realize the importance of our voice when we are silenced. In the north of Pakistan we realized the importance of education when we saw the guns. The wise saying "the pen is mightier than the sword" is not just a saying. We are afraid of guns and pens. The power of education frightens them. The power of the voice of women frightens them. They killed 14 innocent schoolgirls in the recent attack in Quetta. And that is why they are blasting schools every day because they are afraid of change and equality that we will bring to our society. Remember that there was a boy in our school who was asked by a journalist why the Taliban are not educated? He answered very simply by pointing to his book, "It is written".

Oppressed people cannot remain oppressed forever. The yearning for freedom is universal. It is what has kept the American Negro. Something within has reminded him of his birthright of freedom, and something without has reminded him that it can be gained. Consciously or unconsciously, he has been caught up by the trend of modern times. And with his black brothers of Africa, his brown and yellow brothers of Asia, his brothers of the Caribbean, the United States Negro is moving with a sense of great urgency toward the promised land of racial justice. If one recognizes this kind of urge that has engulfed the Negro community, one should readily understand why public demonstrations are taken place. The Negro has many pent-up resentments and latent frustrations, and he must release them. Let him march; let him make prayer pilgrimages to the city hall; let him go on freedom rides; let him understand why he must do so. If his emotions are not released, he will seek expression through violence; this is not a threat but a fact of history.

## we the light

by Julia Haney

Speech delivered to the United Nations

Dear sisters and brothers, we realize the importance of light when we see darkness. We realize the importance of our voice when we are silenced. In the same way, when we were in Swat, the north of Pakistan, we realized the importance of pens and books when we saw the guns. The wise saying, "The pen is mightier than the sword." It is true. The extremists are afraid of books and pens. The power of education frightens them. They are afraid of women. The power of the voice of women frightens them. This is why they killed 14 innocent students in the recent attack in Quetta. And that is why they kill female teachers. That is why they are blasting schools every day because they were and they are afraid of change and equality that we will bring to our society. And I remember that there was a boy in our school who was asked by a journalist why are the Taliban against education? He answered very simply by pointing to his book, he said, "a Talib doesn't know what is written inside this book."
