RE: CZM Federal Consistency Review of Atlantic Bridge Project-Weymouth Compressor Station, Weymouth

Dear Mr. Tyrrell:

The Massachusetts Office of Coastal Zone Management (CZM) has completed its review of the proposed project involving Algonquin Gas Transmission, LLC (Algonquin)'s construction of a new natural gas compressor station in the Town of Weymouth at a site located at 6 & 50 Bridge Street to ensure consistency with CZM enforceable program policies.

Based upon our review of applicable information, we concur with your certification and find that the activity as proposed is consistent with the CZM enforceable program policies.

If the above-referenced project is modified in any manner, including any changes resulting from permit, license or certification revisions, including those ensuing from an appeal, or the project is noted to be having effects on coastal resources or uses that are different than originally proposed, it is incumbent upon the proponent to notify CZM, submit an explanation of the nature of the change pursuant to 15 CFR 930, and submit any modified state permits, licenses, or certifications. CZM will use this information to determine if further federal consistency review is required.

Thank you for your cooperation with CZM.

Sincerely,

Lisa Berry Engler
Director

CZM #14942
