Background/Narrative

The table below includes key datapoints outlined in Chapter 77 of the Acts of 2023. The data is updated as of December 12, 2023. The Administration continues to pursue key activities related to these datapoints below.

Caseload

Datapoint	Value as of 12/12/23	Notes				
Total families in EA		Estimate based on citizenship status of				
who entered as	3,516	families recently entering EA applied to				
migrants, refugees, or	3,310	systemwide caseload based on primary

motels, by municipality		emergency shelters.				

Work Authorizations

• Work Authorization Clinics: In partnership with the Department of Homeland Security and multiple Commonwealth agencies, the Administration successfully ran two weeks of work authorization clinics for migrants staying in emergency family shelter (November 13-17 and November 27-30). In total, the work authorization clinics supported 2,910 individuals, completed 1,951 biometrics with USCIS, vaccinated 1,031 adults and children, and facilitated 734 visits to MassHire stations.

Datapoint	Value as of 12/12/23	Notes
Total number of individuals in EA who entered as migrants, refugees, or asylum seekers who have work authorizations	813	Adults who entered as migrants, refugees, or asylum seekers in EA shelter system who have self-reported that they have confirmed work authorization. This excludes (1) US citizens, green card holders, and other categories of individuals who have not recently migrated but are eligible to work; and (2) those who entered as migrants, refugees, or asylum seekers who have applied for work authorization but who have not reported confirmation of approved work authorization.

Fiscal

• **School District Reimbursements:** DESE is working with districts to collect student enrollment data, and payments are expected to be released later this month pending review of district data.

Datapoint	Value as of 12/12/23	Notes
Total amount expended on the emergency housing assistance program in FY24	\$205 M	Spending to date includes shelter & associated services, National Guard activation, Clinical and Safety Risk Assessment Sites, Temporary Emergency Shelters, Family Welcome Centers. Because the Commonwealth typically pays service providers and vendors monthly, spending to date is largely reflective of costs through October; November invoices are currently being received and processed.
Total amount expended on supplemental school district costs, by district	See Appendix B	First tranche of FY24 payments expected to be made in December. FY23 school district per-pupil emergency aid payments detailed in Appendix B.
Total amount expended on municipal supports, by municipality	None	No funding expended from 1599-0514 as of 12/12/23.
Total amount spent for any other purpose from 1599-0514	None	No funding expended from 1599-0514 as of 12/12/23.
Projected FY24 deficiency	\$224 M	Estimated deficiency accounts for funding available through the FY24 GAA, Housing Preservation and Stabilization Trust Fund, Ch. 268 of the Acts of 2022, Ch. 2 of the Acts of 2023, and Ch. 77 of the Acts of 2023. Estimated spending includes shelter & associated services, staffing, Clinical and Safety Risk Assessment Sites, Family Welcome Centers, school district reimbursements, immigration and refugee health, community, and workforce supports, and municipal support.
Projected FY25 costs through the end of FY25	\$915 M	While \$915 M represents projected FY25 costs, when you subtract out assumed FY25 resources consistent with the FY24 GAA, the gap between projected FY25 costs and assumed GAA resources is \$590 M. Estimate includes shelter & associated services, staffing, Clinical and Safety Risk Assessment

Sites, Family Welcome Centers, school
district reimbursements, immigration and
refugee health, community, and workforce
supports, and municipal support.

Blueprint Moving Forward

Healey-Driscoll EA Shelter Funding Blueprint: Addressing Incurred and Anticipated Costs

In September, the Administration filed a \$250 M supplemental budget request to address the expanding needs of the Emergency Shelter System based on the number of families in the shelter system at that time. Since then, the number of families in our shelter system has grown, as has the associated funding need. The Legislature's recent passage of \$260 M in supplemental funding has provided a critical infusion of resources to keep the system operating for the next several months. The shelter system has reached capacity at 7,500 families, and at that level, **requires** additional funding to avoid imminent run-out dates for key programs.

Table 1: Breakdown of FY24 Remaining Deficiency

At the same time, the current average length of stay for families in the system exceeds one year. That means that even with the system's capacity level established, deficiency needs for EA are a two fiscal year problem, requiring a solution that spans FY24 and FY25. Fundamentally, the crisis of family homelessness requires a multi-faceted set of policies including shelter, supportive services, education and workforce training, and affordable housing programs that enable families to leave shelter and ultimately move on to stable housing.

Thankfully, the state has the resources available in Transitional Escrow to put a plan in place that will address FY24 and much of FY25 without requiring offsetting budget cuts to other programs to meet the spending requirements of the family shelter crisis. As of December 2023, the estimated uncommitted balance of the Transitional Escrow Fund (TEF) is approximately \$700 M.²

The Administration is, therefore, proposing to use the remaining balance of Transitional Escrow to fund direct EA costs and related services that help stabilize families and address barriers to

² Subject to change.

shelter exits. The plan also invests in housing production and preservation to make affordable, stable housing options available to more families.

Specifically, the Administration plans to file a supplemental budget that would move the remaining TEF balance into an Emergency Housing and Community Trust Fund, to be spent in the following prioritized manner:

- 1. Up to \$150 M to support housing production and preservation, supplementing the investments in the recently filed Affordable Homes Act
- 2. To fund FY24 EA shelter and related costs and continuing FY25 EA shelter costs
- 3. Remainder can be used for additional housing production and preservation

When combined with the recently passed \$260 M in supplemental budget funding,³ and the established system capacity levels, this plan covers the full projected FY24 deficiency and more than half of expected FY25 costs. The proposal also creates flexibility in how we address costs in FY25 so that if circumstances change (ex: federal supports, work authorizations, increased exits), resources can be redirected from reacting to the current crises to investing in housing production and preservation.

The Administration's EA Shelter Funding Blueprint covers critical resources for families in the EA Shelter System as well as the communities supporting them, including the following FY24 investments:

Production-Focused Investments

• Up to \$150 M in cash for housing production and preservation to supplement investments in the recently filed Affordable Homes Act and continue addressing long-term solutions to housing insecurity

Shelter System Needs

- \$148 M for supportive services and safe shelter, including:
 - Shelter system at expanded caseloads (7,500 families)
 - o Case management, housing search, public health, and community supports
 - o Childcare, workforce readiness, English language, and other services to help families exit shelter and achieve stable permanent housing
- \$67 M for support for school districts and unhoused K-12 students, including:
 - o School district costs associated with additional student enrollments
 - o Special education services and English language instruction
 - o Multilingual faculty recruitment and retention
- \$10 M for specialized Immigration and Refugee health and community supports to address the needs of families with complex immigration status issues

The remaining \$326 M in TEF funding will be held in reserve for FY25 needs. Recognizing the fluidity of the situation and the significant need for shelter and services during this crisis, as well as the importance of supporting the local communities in which these families are sheltered, attending school, and participating in everyday life, the proposal will allow spending flexibility to address changing demands in FY24 and FY25.

The Administration plans to file its supplemental budget legislation reflecting this EA Shelter Funding Blueprint in the coming weeks.
